TO: ALL PROSPECTIVE BIDDERS

RE: City's Bidders List Program

Thank you for your interest in being added to the City of Kalamazoo's Bidders List. This packet will help us place you on the appropriate list for the goods and services you might sell to the City. Bidders lists are used by the Purchasing Division to solicit competitive prices and terms for the procurement of the City's goods and services.

The City's bidders lists are organized by commodity classes. Your attention to the commodity list will ensure that you are added to the correct list. Announcements are sent to potential bidders by email or facsimile. Please be sure to provide either your company's email address or fax number on the registration.

To be added to the City's bidders list you must:

1. Complete the attached Bidders List Registration.
2. Circle or highlight the commodity code number(s) of supplies and/or services **you can provide**. For example, if the City is looking to purchase heavy equipment, and you sell heavy equipment, you would note that code.
3. To further assist us in correctly classifying your company, very briefly describe on the registration the products or services you provide.
4. Return the **SIGNED** registration, and commodity code list to the Purchasing Division.

Maintaining the bidders list is a continuous process. It is our goal to add you to the appropriate list within two weeks of receipt of the registration.

Again, thank you for your interest in providing goods and/or services to the City of Kalamazoo. If you have any questions regarding the procurement process, please feel free to call me at (269) 337-8020 or via email at cokpurchasing@kalamazoo.org.

Sincerely,

Michelle Emig

Michelle Emig

If there are other commodities or services that your company handles that you believe the City of Kalamazoo may have the occasion to bid, please list them. Since this list is rather broad, please give a breakdown on the type of commodity(s) and/or services you perform, i.e., Architect, Engineer, Chemicals, etc. This is important because it will give the City a better idea of what bid lists your company should be placed on.
