

APPENDIX D

**Reimbursable Cost Schedule**

The following Reimbursable Costs for materials and services provided by the City shall be recaptured from the customer requesting the service and/or their contractors as follows:

1. New water service line installations less than two inches will be charged at  
\$6,000.00 for a "full service-street plus yard connection" (main to meter).  
\$3,000.00 for a "partial service-yard connection" (curb box to meter).  
\$7,000.00 Non-Emergency Neighborhood Extension Fee  
System Capacity Buy-In Fee per Appendix G  
Private line, plumbing connection, and well abandonment services can be installed by the City's contractor with a connection estimate per the below schedule.
  
2. New water service line installation two inches or greater and water main and appurtenance, which the City installs, shall be charged at time and material estimated costs based on actual labor hours and unit pricing. The below parts list are typical parts, if there are materials required outside of this price list, pricing will be based on 2024 Inventory Contract pricing. The 2024-unit pricing for materials is set forth below:

**2024 Pricing**
